Landing Team Table

Components and hardware

Screw 1
1" long
Qty: 4

NELPM29

Qty:2

NELPM42

Qty:2

TOOLS NEEDED

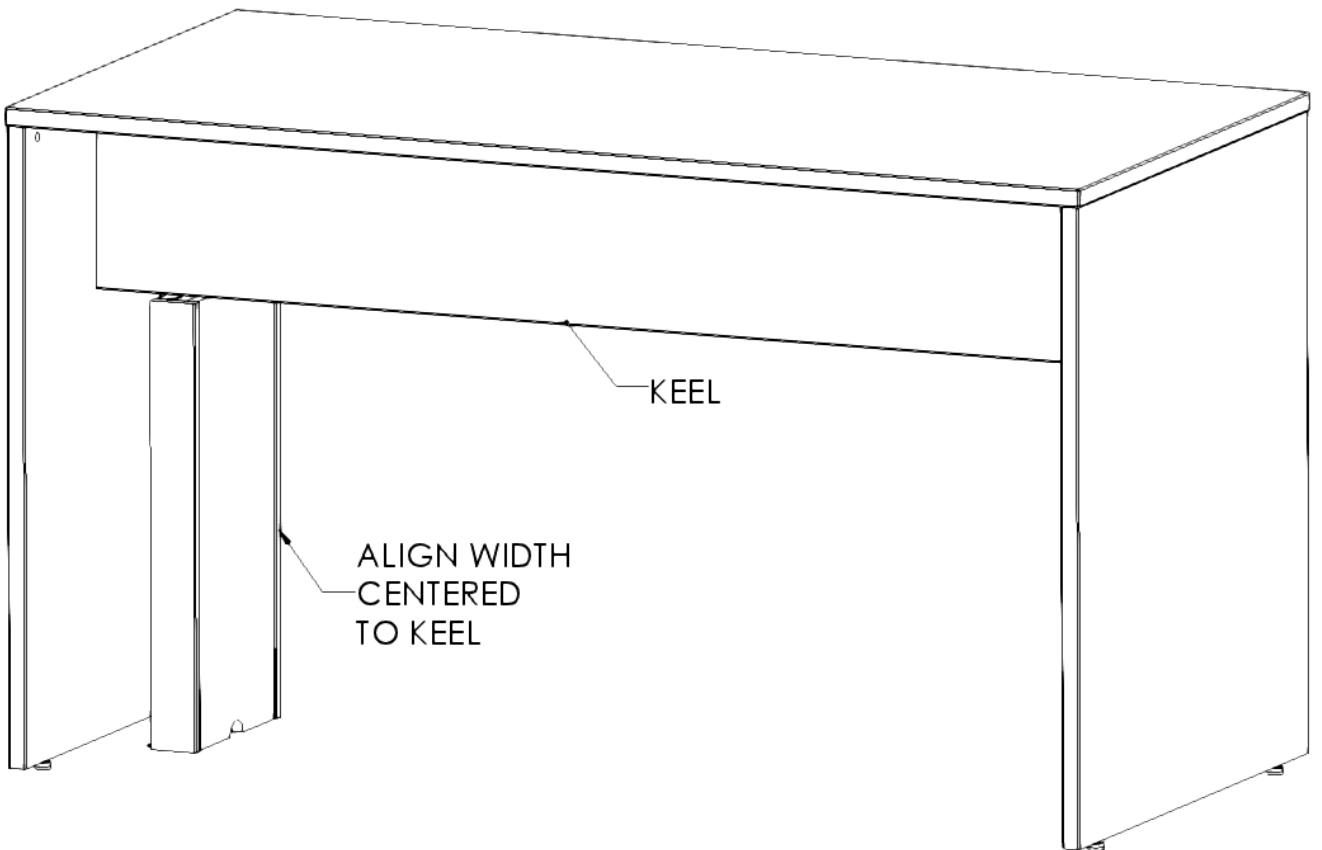

- Drill motor or Driver
- Phillips driver bit

CAUTION!!!

Do not over tighten screws when installing. The last few turns should be done slowly, or by hand.

Factory assembled

Slide bottom lip of wire cover under side leg so cover sits flat to leg

Lift cover so tape on bottom bracket adheres to bottom of leg

Install qty:2 screw 1 through top bracket into side panel to secure wire cover
