Rapid Response Screens & Accessories Sell Sheet
Adapt your workspace today
**Return to Work Safely**

Spaces must adapt quickly to minimize the spread of COVID-19, and keep employees healthy. Enwork offers a complete catalogue of innovative products, in safer materials and dimensions, to support the new needs of today.

**A Paradigm Shift in Planning**

Organizations are faced with the need to modify layouts to maximize the distance between occupants, and define personal space. New products are available to help contain and block airborne particulate. Solutions range from immediate and recyclable, to customizable and long-lasting.
Material Innovation & Cleanable Surfaces

Enwork offers a complete collection of high-performance materials specifically designed to combat and minimize exposure to COVID-19.

Antimicrobial WilsonArt HD Laminate

Wilsonart® HD® Laminates with Antimicrobial Protection include a silver ion antimicrobial agent built into the laminate to protect the surface by inhibiting the growth of stain and odor-causing mold and mildew.

Perfect for training, conference, café, and meeting tables. Standard on all Enwork product and quoting today.

Why use Wilsonart Antimicrobial Laminate?

<table>
<thead>
<tr>
<th>It’s Proven Technology.</th>
<th>Silver ions kill cells.</th>
<th>It resists stains and scratches.</th>
<th>It is active 24/7.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Classified as a treated article, silver ion additive is registered with the EPA to demonstrate that it is both safe and effective.</td>
<td>On contact, silver ions diminish cell function resulting in death.</td>
<td>Surfaces inhibit growth of bacteria, mold, and mildew, which cause stains. Also includes AEON(TM) enhanced scratch and scuff-resistant technology for increased durability.</td>
<td>Protection is built into the surface and will not wash off or wear away over time.</td>
</tr>
</tbody>
</table>

Heavy Duty Cardboard

- COVID-19 virus decays in 24 hours or less (Per the New England Journal of Medicine)
