Conference table power and data. Let us design a solution for you.

We make it easy to choose the right Power/Data assembly, assuring you have a highly functional yet cost effective solution. With a little bit of planning, connecting a table or a training room can be simple – usually without the added complexity and expense of a technology integrator. Listed below are planning tips to help assure an impressive, productive installation.

Step 1 – Determine the number of power outlets needed.
Based on the size of the table and size of space, determine how many users might need power.

Step 2 – Determine the number and type of datacom connections needed.
Which systems require physical connections? If the room or facility has a wireless network, fewer will be needed.

**Conference Table Solutions**

- **PowerEdge Conference Top**
  - Modern long rectangular shape aesthetics with pop up doors. Two 10’ cords.
  - Aesthetics. Flush fit door with cable drop space. Available with pre-wired dual charging Plate in one or more Datacom Ports. Daisy-chaining optional.
  - The most substantial solution for conference applications. Retracting doors.
  - Great flexibility. Retracting doors flush with surface. 9’ power cord.
  - Popular choice for multiple mobile tables applications. Flush fit doors with dual outlet. Convenience Outlet on bottom & 9’ power cord. Includes 15A 125V circuit breaker for overload protection.
  - Doors lay flat when open. Power Data varies by table size.

- **Satellite Undersurface Mount**
  - 10’ power cord. Includes 15A 125V circuit breaker for overload protection.

- **Alexander Linear**
  - Modern long rectangular shape aesthetics with pop up doors. Two 10’ cords.
  - Aesthetics. Flush fit door with cable drop space. Available with pre-wired dual charging Plate in one or more Datacom Ports. Daisy-chaining optional.

- **Ellora Double-sided**
  - Modern long rectangular shape aesthetics with pop up doors. Two 10’ cords.
  - Aesthetics. Flush fit door with cable drop space. Available with pre-wired dual charging Plate in one or more Datacom Ports. Daisy-chaining optional.

- **Foundation Trough Power Kit**
  - Modern long rectangular shape aesthetics with pop up doors. Two 10’ cords.
  - Aesthetics. Flush fit door with cable drop space. Available with pre-wired dual charging Plate in one or more Datacom Ports. Daisy-chaining optional.

- **Oasis 30”**
  - Modern long rectangular shape aesthetics with pop up doors. Two 10’ cords.
  - Aesthetics. Flush fit door with cable drop space. Available with pre-wired dual charging Plate in one or more Datacom Ports. Daisy-chaining optional.

- **Oasis 15”**
  - Modern long rectangular shape aesthetics with pop up doors. Two 10’ cords.
  - Aesthetics. Flush fit door with cable drop space. Available with pre-wired dual charging Plate in one or more Datacom Ports. Daisy-chaining optional.

- **Flip-N-Go**
  - Modern long rectangular shape aesthetics with pop up doors. Two 10’ cords.
  - Aesthetics. Flush fit door with cable drop space. Available with pre-wired dual charging Plate in one or more Datacom Ports. Daisy-chaining optional.

- **Specialty Foundation Trough Kit**
  - Modern long rectangular shape aesthetics with pop up doors. Two 10’ cords.
  - Aesthetics. Flush fit door with cable drop space. Available with pre-wired dual charging Plate in one or more Datacom Ports. Daisy-chaining optional.

- **NEW PowerEdge Conference Tops**
  - Modern long rectangular shape aesthetics with pop up doors. Two 10’ cords.
  - Aesthetics. Flush fit door with cable drop space. Available with pre-wired dual charging Plate in one or more Datacom Ports. Daisy-chaining optional.

- **NEW Satellite Undersurface Mount**
  - 10’ power cord. Includes 15A 125V circuit breaker for overload protection.

- **Alexander Linear**
  - Modern long rectangular shape aesthetics with pop up doors. Two 10’ cords.
  - Aesthetics. Flush fit door with cable drop space. Available with pre-wired dual charging Plate in one or more Datacom Ports. Daisy-chaining optional.

- **Ellora Double-sided**
  - Modern long rectangular shape aesthetics with pop up doors. Two 10’ cords.
  - Aesthetics. Flush fit door with cable drop space. Available with pre-wired dual charging Plate in one or more Datacom Ports. Daisy-chaining optional.

- **Foundation Trough Power Kit**
  - Modern long rectangular shape aesthetics with pop up doors. Two 10’ cords.
  - Aesthetics. Flush fit door with cable drop space. Available with pre-wired dual charging Plate in one or more Datacom Ports. Daisy-chaining optional.
Training and Teaming Table power and data. We’ve got you covered.

CONTINUED FROM PREVIOUS PAGE

Step 3 – Determine which Power/Data unit best fits your requirements.
Use the Conference and Training/Teaming charts as well as the detailed descriptions in the Price List to compare capabilities and features.

Data Options – Each unit is marked with an ▲ or ▼ to identify the category of datacom options available.

Step 4 – Determine the location and orientation of the Power/Data units in the table top. The position of units in a table affects both user access and the ease with which power and data can be routed into the table.

Step 5 – Don’t forget to order accessories: Cable Grippers, Cable Managers, and other accessories help keep all the wires and cables organized and out of sight. Available options are shown on the next page.
