Zori Freestanding T-Shaped Screens Installation Guide – 07.20
1) Parts and Fasteners Included

- Pre Assembled Panel
- Bottom Plate (FRM-1911)
- Stretcher – Upper (FRA-2065-xx)
- Lower Panel (Laminate FRL-1876-xx)
- T Cap Plate (FRM-1912-T)
- Stretcher – Lower (FRA-2065-xx)
- Upper Panel (Acrylic FRX-1046 or Acoustic FRX-1064-xx)
- Vertical Support Column (FRA-2066-xx)
- Top Cap Plate (CYM-1700)
1) PARTS AND FASTENERS INCLUDED CONT.

- Aluminum U-Channel (For Acrylic panel only) (FRA-2068-xx)
- Joiner Biscuit (For Acoustic panel only)
- 10-24 x 1 Square Drive Flat Head Type F Screw
- 5/16-18 X .75 Serrated Flange Head Cap Screw
- #5 X 1/2" Flat Head Wood Screw, Phillips
2) TOOLS AND SUPPLIES REQUIRED

- Drill
- Square Head bit
- ½ in Wrench (ratcheting recommended)
Lay pre-assembled Panel flat on a non-marring surface.

Remove Cap Plate and 10-24 x 1 Square Drive Flat Head Screws from the slotted end of the Vertical Support Column.

(Set aside to be re-installed later)

Assemble the Upper and Lower Stretchers and the Vertical Support Column using (4) 5/16-18 X .75 Cap Screw.

Tighten the Lower stretcher bolt.

Snug the Upper stretcher bolt (Slotted end). This is to be dis-assembled later.
3) ASSEMBLY:

Lift the Pre Assembled Panel into an upright position, with hole and slot side down. Assemble the Upper and Lower Stretchers and the Vertical Support Column. All Vertical Support Column should have the slotted ends oriented in the same direction.

FIGURE 4

Lifts the sub assembly and place it in the upside-down position (slotted side down).

FIGURE 5

Install (3) Bottom Plates and the T Cap Plate using (12) 10-24 x 1 Square Drive Flat Head Screws.

FIGURE 6
3) ASSEMBLY:

Lift the sub assembly and place it in the upright position.

Loosen the (2) 5/16-18 X .75 Cap Screw and remove the Upper Stretchers. Set aside to be re-installed later.

Install Panels.

*Note: The number of panels will depend on screen configuration.*
3) **ASSEMBLY:**

**NOTE: Acrylic Installation**

Place Aluminum U-Channel on the edge of the Lower Laminate Panel and fasten using the supplied #5 X 1/2" Flat Head Wood Screws.

**NOTE: For Acoustic Installation**

Place Joiner Biscuits into the routed slots of the Lower Laminate Panel and install the Acoustic panel.

Install the remaining Upper Panels.
Reinstall the Upper Stretcher from Fig 8 and tighten the 5/16-18 x .75 Cap Screws.

Reinstall the Cap Plate and (4) 10-24 x 1 Square Drive Flat Head from Fig 2.

Install Cap Plate CYM-1700 using 10-24 x 1 Square Drive Flat Head.

Assembly Complete.
